Key Selling Points

DMH-ZF9350BT

- 1 Compatible with Amazon Alexa, Apple CarPlay and Android Auto.
- 2 Web Browsing, Streaming video/music, Real-time information (e.g. Sports games) thanks to Wi-Fi connection and CarAVAssist app.
- 3 Superior in-car AV performance with Master Sound Reviver, Hi Res Audio and Full HD video playback via USB.

## Dynamic Large 9" Capacitive Type Display

Large 9-inch screen provides an expansive viewing experience that makes map reading safer and easier. What's more, the highly responsive capacitive-sensing touch panel enables smoother and easier operation.

## Floating Display Ensures Easy Monitor Position Adjustment

The display position can be adjusted up/down, left/right and fore/aft, as well as tilted for a better viewing angle. You can adjust the monitor to just the right position according to your needs and the car's interior design.

**DMH-ZS9350BT**

Non-DIN Separate Type Multimedia AV Receiver with 9" Capacitive HD Touchscreen Display, Built-in Wi-Fi, Amazon Alexa, Apple CarPlay, Android Auto, Built-in Bluetooth® and Full HD Video Playback from USB Device

- 2 Web Browsing, Streaming video · music, Real-time information (e.g. Sports games) thanks to Wi- Fi connection and CarAVAssist app.
- 3 Superior in-car AV performance with Master Sound Reviver, Hi Res Audio and Full HD video playback via USB.

# Apple CarPlay

Wired & Wireless

Apple CarPlay is a smarter, safer way to use your iPhone while you drive. And now with an all new Apple CarPlay Dashboard that helps you with tunes, turns, and Siri suggestions, a Calendar app that lets you view and manage your day, and maps that reveal more of what's around you, getting there just got a whole lot easier. And a lot more fun. The popular applications like Waze are supported.

Apple CarPlay requires iPhone 5 or newer with the latest version of iOS. Either "Made for iPod" or "Made for iPhone" means that an electronic accessory has been designed to connect specifically to iPod or iPhone and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Operations and functions may vary depending on iOS device or receivers.  
 Note: For availability in your country, please visit <http://www.apple.com/ios/carplay>

# Android Auto™

Wired & Wireless

Android Auto extends the Android™ platform into the car in a way that's purpose-built for driving. Android Auto automatically brings you useful information and organizes into simple cards that appear just when they're needed. It's designed to minimize distraction so you can stay focused on the road ahead. You can use the popular application like Waze.

Android Auto Wireless or Android Auto may not be available on all devices. Android Auto requires the Android Auto app on Google Play. To wirelessly use Android Auto on your car display, you need a compatible Android smartphone with an active data plan. You can check which smartphones are compatible at [g.co/androidauto/requirements](http://g.co/androidauto/requirements).

Standard text messaging rates apply. Visit [support.google.com/android-auto](http://support.google.com/android-auto) for more information.

# CarAVAssist App

CarAVAssist App supports web browsing, home screen customization and other functions. You can bookmark websites that you want to enjoy in your car, register your favorite sports teams to receive real-time game updates, make notification settings for your smartphone, and more. The app also allows you to customize your receiver's home screen, including adding your own background image, and easily perform OTA Firmware updates.

**Download Now!**

CarAVAssist (iOS/Android)

Download on the App Store

GET IT ON Google Play

Register your favorite sports teams

Use a favorite photo for your home screen background

Apply bookmarks on your smartphone to the receiver

You can view any bookmarked sites on the receiver display. Stream music and videos easily!

## Streaming Audio/Video and Web Browsing

Wi-Fi connection is possible by tethering your smartphone or using a Wi-Fi router, which will allow you to stream videos and music, and by registering your favorite sports team, to display game scores in real time. Web browsing is also available.

Note: Some browsers may not be able to display some web pages or play some types of video and audio.

# Real-Time Information

You can easily access live information including sports, weather and more.

## Alexa Built-in\*

You can talk to Alexa on the receiver. With Alexa Built-in, you can ask to play music, place calls, listen to audiobooks, hear the news, check the weather, control smart home devices and more — all while you keep your hands on the wheel and eyes on the road.

\* This service requires internet access.  
Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates.  
Alexa is not available in all languages and countries.  
Certain Alexa functionality is dependent on smart home technology.

## Smart UI

New Smart UI allows you to customize the widgets and icons on the home screen more freely than before. Now you can swipe up, down, left and right to view information just as you would on your smartphone. Also, you have immediate access to weather forecasts, real-time sports updates on your favorite teams, your favorite radio stations, and even email notifications and messages sent to your smartphone.

## Parking Assist Guidelines

When you shift the vehicle into reverse, parking assist guidelines appear in the display for convenient parking guidance.

Different from the actual illustrations

Rear view camera

## Dual Camera Inputs Ready

Dual camera inputs enable you to add a reverse (rear facing) camera\* and front facing camera\* that can assist with front and rear visibility, towing, or parking.

\* Camera is optional.

# SOUND TECHNOLOGY

A variety of technologies are incorporated to deliver high quality sound in your car space. Enjoy any kind of in-car entertainment to the fullest with clear and dynamic sound.

## Hi-Res Audio Support

Fully reproduces high-resolution sound source data, realizing the super-realistic sound that Pioneer strives to achieve.

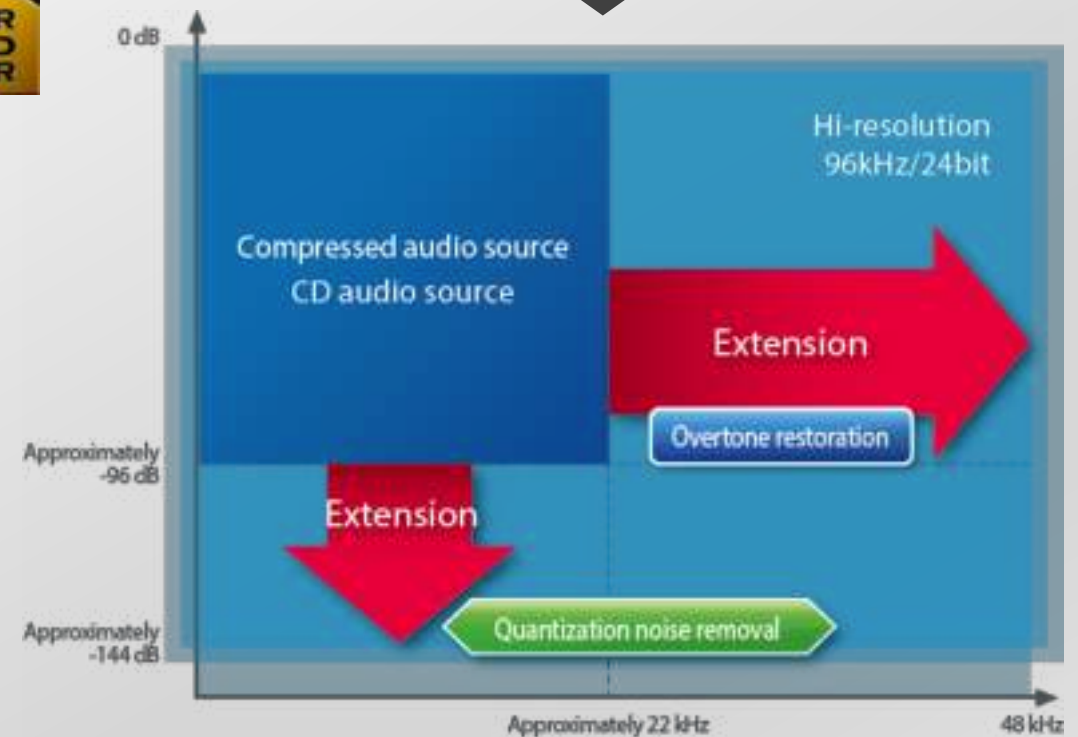

## Master Sound Reviver

Original Pioneer technology effectively removes the quantization noise that occurs in the audible band when playing CD or other compressed audio sources. Together with Pioneer's unique harmonic generation technology, which faithfully restores the music signal above the audible band lost during CD master recording, the resulting sound information is comparable to a high-resolution sound source. Far exceeding the sound quality of a CD or other compressed sound source, the result is high-quality, natural sound reproduction.

Image of frequency band extension and quantization bit depth extension

» More details on next page

High-frequency generation true to the original sound

■ CD audio source

Frequency band recorded on CD [0 – approx. 22kHz]

During CD mastering, high frequency components of around 22kHz or higher are cut by downsampling to (Fs): 44.1kHz.

■ MSR

MSR frequency band extension [0 – 48kHz]

MSR expands the frequency band by adding harmonic components that are true to the original sound and by restoring natural high-frequency components.

Quantization noise removal

Improved small signal reproduction

CD audio source

MSR

Restores clean and smooth audio signal

CD audio source

MSR

Improved S/N ratio and expanded dynamic range by removing quantization noise

# Dynamic Bass Enhancer

Pioneer Audio Receivers enrich bass depth and use Pioneer original technology to provide more dynamic, punchy sound.

## ■ Reproduction of Missing Fundamentals

The unique audio processing restores fundamental qualities that may be missing from the original sound, allowing you to hear bass sound quality that surpasses the depths of low-frequency sound that speakers can actually emit. From even small speakers, you can feel the impression of heavy bass that you typically hear from larger speakers.

## ■ Emphasizing Kick Sound

By increasing specific amplitude, you can experience the kick sound sensation of punchy beat.

## Specialized Audio Parts and Professional Tuning

A Complete Redesign of Refined Sound Quality

### PMLCAP (Polymer Multi-Layer Capacitor)

The adopted PMLCAP generates sound of resonance and reverberation among midrange frequencies that are easiest to hear.

### Low Impedance Parts

Use of low impedance parts helps to reduce noise in power supply.

## 24-bit True Color Panel

New AV receiver displays are capable of 24-bit True Color reproduction of up to 16,777,216 colors, so they can achieve as much as about 256 times a conventional display's color depth.

*Distinctive Color in Detail*

## Full HD Video from USB Devices

New AV receivers can play Full HD (1080p) video from files encoded in various digital formats that are stored in your easy-to-connect USB devices.

### Compatible Codec\* with USB Device

Codec	Extension	
VC-1	.wmv/.asf	1920 x 1080/45 Mbps

### 3. WebLink® Cast

The latest version of WebLink (WebLink 2.0) enables smartphone mirroring with touch control on iOS and Android via WebLink Cast app.

#### ■ Procedures

- 1 Install WebLink Host app to a compatible smartphone (iPhone/Android).
- 2 Connect the smartphone to a compatible receiver with USB cable.
- 3 Touch WebLink Host app icon on the receiver screen.
- 4 Touch WebLink Cast app icon (WebLink 2.0 hardware only).

Mirroring various apps on iOS and Android with touch control

## WebLink®

WebLink for Pioneer AV receivers expands in-car entertainment with an amazing world of apps. Enjoy personalized music, videos, and other connected content powered by your phone and the cloud.

### Smartphone Minimum Requirements

In order for a smartphone to be compatible with WebLink, it must meet all of the following criteria:

- iOS – Version 14.0 and above is supported on WebLink  
\*iOS support includes the current major OS version and 1 previous major version.
  - Android – Version 7.0 and above on Google certified phones is supported on WebLink.
- : <https://support.google.com/googleplay/answer/1727131?hl=en>
- Phone must have a hardware video decoder
  - Minimum CPU: 1.5GHz Dual Core
  - Minimum RAM: 2GB

# WebLink®

### Music Player

Experience smarter and better in-car life by playing the music from your smartphone.

### Search and information apps

You can use apps such as Yelp and Zomato directly from the AVH receiver, accessing important information inside your car more safely and conveniently.

Use the FAVORITES button to instantly switch to the content you use most often. With the SEARCH button, you can easily search for content.

### Video playback

WebLink advances your capability to play back video. Watch video stored in a smartphone or streamed through the cloud on the AV receiver's large display.

Simplified design featuring two large control icons ensures easy operation.

WebLink® is a registered trademark of Abalta Technologies, Inc.  
 Zomato is a trademark of Zomato Pvt Ltd.  
 Genius Maps is a trademark of Mireo d.d.

# CarAVAssist App

CarAVAssist App allow you to do settings on your headunit using your smartphone, and more. It also allow you to perform OTA Firmware updates.

# High-performance AV features

## Sound Tuning

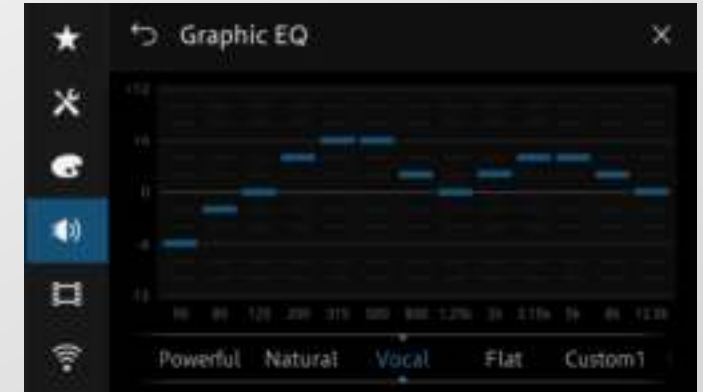

Detailed tuning features realize comfortable quality for your time in the car.

Speaker Level Setting

Crossover Setting

13-Band Graphic EQ

## Manual Time Alignment

Utilizing Time Alignment function, you can adjust speaker output timing, so that sound from all speakers reaches the driver's ears in perfect sync.

The different distances from each speaker to the driver cause the delay of sound.

Time Alignment makes all speakers sound as if they are virtually equidistant from the driver.

# High-performance AV features

## A variety of carefully selected parts to achieve high sound quality

We examined the components around the DSP and coupling capacitor and succeeded in stabilizing the shared voltage.

In addition, incidental sound and noise are reduced, and sound with good depth and separation is realized.

Plus, the installation of carefully selected components in the "film capacitor" improves the proposal, creates a sense of reverberation in the midrange, and fills the cabin with a more three-dimensional, core and realistic sound of the vocals.

## Full HD Video from USB Devices

New AV receivers can play Full HD (1080p) video from files encoded in various digital formats that are stored in your easy-to-connect USB devices.

### Compatible Codec\* with USB Device

Codec	Extension	Maximum resolution	Maximum frame rate

## More Connectivity

### USB Type-C® (3A battery charge)

Features USB Type-C®, which enables quick and efficient battery charging.

### HDMI Input (type D)

Equipped with HDMI input. For easy connection and enjoyment of HDMI compatible AV devices and game consoles.

## Easy App Switching

The new user interface on the AV receiver simplifies smooth switching between WebLink and Apple CarPlay/Android Auto using connected devices. The interface home display automatically shows available functions when a smartphone is connected to the receiver.

1

Push "Device" button.

2

Choose "Apple CarPlay" tag.

3

Push "Apple CarPlay" button.

4

Apple CarPlay screen shows up.

## Key Selling Points

- 1 Versatile smartphone connectivity including Apple CarPlay, Android Auto, WebLink, and Smartphone mirroring
- 2 Smooth connection by Wireless CarPlay\* and Android Auto Wireless\*
- 3 High-performance AV features

\*Service is not available in all areas

## Apple CarPlay

Wired & Wireless

Apple CarPlay is a smarter, safer way to use your iPhone while you drive. And now with an all new Apple CarPlay Dashboard that helps you with tunes, turns, and Siri suggestions, a Calendar app that lets you view and manage your day, and maps that reveal more of what's around you, getting there just got a whole lot easier. And a lot more fun. The popular applications like Waze are supported.

Apple CarPlay requires iPhone 5 or newer with the latest version of iOS. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Operations and functions may vary depending on iOS device or receivers.

Note: For availability in your country, please visit <http://www.apple.com/ios/carplay>

## Android Auto™

Wired & Wireless

Android Auto extends the Android™ platform into the car in a way that's purpose-built for driving. Android Auto automatically brings you useful information and organizes into simple cards that appear just when they're needed. It's designed to minimize distraction so you can stay focused on the road ahead. You can use the popular application like Waze.

Android Auto Wireless or Android Auto may not be available on all devices. Android Auto requires the Android Auto app on Google Play. To wirelessly use Android Auto on your car display, you need a compatible Android smartphone with an active data plan. You can check which smartphones are compatible at [g.co/androidauto/requirements](http://g.co/androidauto/requirements).

Standard text messaging rates apply. Visit support. [google.com/android auto](http://google.com/android auto) for more information.

## WebLink®

WebLink for Pioneer AV receivers expands in-car entertainment with an amazing world of apps. Enjoy personalized music, videos, and other connected content powered by your phone and the cloud.

### Smartphone Minimum Requirements

In order for a smartphone to be compatible with WebLink, it must meet all of the following criteria:

iOS 14.0 and above  
Android 7.0 and above

WebLink Host and WebLink compatible applications are supported on the following iOS and Android versions:

- iOS – Version 14.0 and above is supported on WebLink
- \*iOS support includes the current major OS version and 1 previous major version. <https://support.google.com/googleplay/answer/1727131?hl=en>
- Phone must have a hardware video decoder
- Minimum CPU: 1.5GHz Dual Core
- Minimum RAM: 2GB

Notes: WebLink operability currently under review. Please contact the local distributor for details.

# WebLink®

### Music Player

Experience smarter and better in-car life by playing the music from your smartphone.

### Search and information apps

You can use apps such as Yelp and Zomato directly from the AVH receiver, accessing important information inside your car more safely and conveniently.

Use the FAVORITES button to instantly switch to the content you use most often. With the SEARCH button, you can easily search for content.

### Video playback

WebLink advances your capability to play back video. Watch video stored in a smartphone or streamed through the cloud on the AV receiver's large display.

Simplified design featuring two large control icons ensures easy operation.

WebLink® is a registered trademark of Abalta Technologies, Inc.  
 Zomato is a trademark of Zomato Ltd.  
 Genius Maps is a trademark of Mireo d.d.

### 3. WebLink® Cast

The latest version of WebLink (WebLink 2.0) enables smartphone mirroring with touch control on iOS and Android via WebLink Cast app.

#### ■ Procedures

**1** Install WebLink Host app to a compatible smartphone (iPhone/Android).

**2** Connect the smartphone to a compatible receiver with USB cable.

**3** Touch WebLink Host app icon on the receiver screen.

**4** Touch WebLink Cast app icon (WebLink 2.0 hardware only).

Mirroring various apps on iOS and Android with touch control

# USB Mirroring

USB Mirroring lets you enjoy compatible smartphones apps in the car. You can operate USB Mirroring compatible applications with finger gestures such as tapping, dragging, scrolling, or flicking on the screen of the receiver.

- Available only for Android phones
- Compatible OS: Android ver. 5 and above (up to OS10 as of May, 2021)
- Launcher app "Autolink" required

## Procedures

**1** Install the Launcher app (Autolink) to a compatible Android phone.

**2** Enter the setup menu of the compatible receiver and touch "Mirroring" in the "Priority of Connectivity" setting.

**3** When connecting a smartphone, settings are automatically configured according to the device to be connected. Unlock the smartphone and touch "Mirroring" on the receiver's screen.

## Built-in Bluetooth®

File Browsing can be used through AVRCP 1.6 version of Bluetooth. You can easily search songs in the browsing display.

**AVRCP  
Version 1.6**

## USB Quick Charge for Android (CDP)

Pioneer's AV receiver has a charging downstream port (CDP) providing up to 1.5 amperes to give an Android smartphone a quick charge.

## Full HD Video from USB Devices

New AV receivers can play Full HD (1080p) video from files encoded in various digital formats that are stored in your easy-to-connect USB devices.

### Compatible Codec\* with USB Device

Version 1.5**

## Built-in Front USB Port and Bluetooth Mic

AVH-G225BT/DMH-G225BT's front panel features a built-in Bluetooth mic and USB port for easy access.

## Direct Control for Certain Android Phones (MTP Mode)

Take advantage of a wired USB connection to the receiver. Sound stays clean and clear, file search and access are very quick, and song, artist, time and album displays are user-friendly.

**Compatible  
with Android**

## Easy Source Switching

To switch the source display, just touch a button on the screen.

**7-Band Graphic EQ** » See next page for details

## Easy Device Switching

Display shows devices that the receiver is paired with, so it's convenient for users to share use of the receiver with other car passengers.

### Pair up to three smartphones with receiver

If each of up three smartphones in the car is paired with the receiver via Bluetooth, switching among the smartphones is as simple as touching the appropriate button on the receiver display.

## Selectable Wall Paper\*

More wall paper selections let you arrange an AV receiver's display as you like.

\* User's photo image data cannot be registered.

## 7-Band Graphic EQ

7-band EQ adjustment allows you to fine-tune sound quality just as you like it.

## 5-Display Colors

Select among five (Blue/Red/Amber/Green/White) colors for the display.

# Pioneer Smart Sync

- What is Pioneer Smart Sync?
- Lineup
- Key Features (New & Existing)
- Recent Updates (as of Fall 2022)
- Importance of Radio's Firmware Update

Note:  
Smartphone not included with SPH-C10BT. Pioneer Smart Sync App download required.  
The user interface and screen content may change due to application updates.

***A highly evolved app links your smartphone to compatible Pioneer car receiver***

- Alexa is not available in all languages and countries.
- Alexa features and functionality may vary by location.

### Key Selling Points

- 1. Enhanced usability of compatible audio receivers***
- 2. Higher quality sound experience***
- 3. Customizable setting for your driving time***

Detailed set-up with your Smartphone screen

## 31 Band EQ

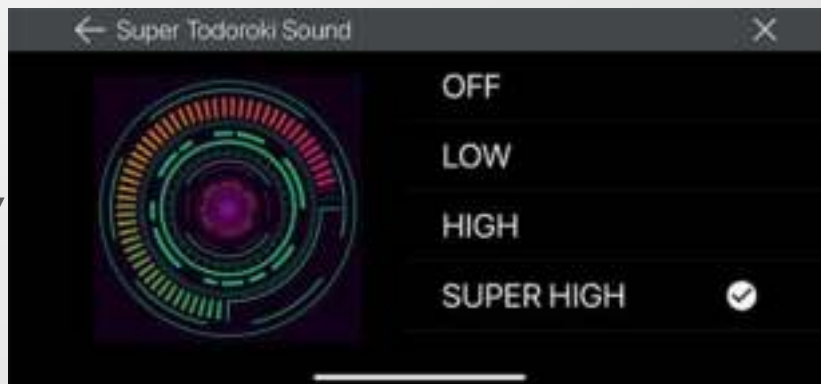

Makes possible precise adjustment of equalizer settings. Handy preset EQ settings are provided, too.

## Easy Sound Fit (Time Alignment)

For aligned sound performance from each speaker, simply select the vehicle type—all it takes is a single touch.

## Super "Todoroki" Sound

For well-balanced, powerful and clear bass sound.

## Live Simulation Sound Effect

Sound field control and sound effect control features give the sense that you are listening to music at a live concert.

## Extra features (require optional kits)

## Monitoring vehicle performance

By connecting your Android smartphone or iPhone device via Bluetooth® to a compatible OBD-II code reader \* (not Pioneer product) and plugged into the vehicle's OBD-II port, you can view more drive information including engine performance, live data and vehicle diagnostic codes to show repair needs.

**ND-PS1**  
Optional parking sensor

## Parking assistance \*SPH-C10BT only

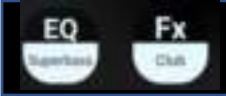

With Pioneer's parking sensor, a helpful parking assist display appears on your smartphone screen.

*\*Note: OBD-II code readers are not Pioneer products and Pioneer is not responsible for their use. There may be risks in the case of faulty performance of an OBD-II code reader including potential vehicle battery drain or introducing security vulnerabilities. Research the benefits and risks of using an OBD-II code reader before connecting one to your vehicle. Not all vehicle data may display depending on the vehicle model. Data displayed through Pioneer Smart Sync may be inaccurate due to communication errors or delays, or performance issues with the OBD-II code reader, Pioneer Smart Sync, or the vehicle.*

## Pioneer Smart Sync App Keeps Updating

“Contact Us” directly from the app

limited areas only

A screenshot of the 'Contact Us' form. At the top, there is a title bar with a back arrow and a close 'X' button. Below the title bar, the text reads: 'Have questions? Found an issue? Need help with Pioneer Smart Sync? Contact us directly.' The form contains several input fields: 'Name \*' (with sub-fields for 'first name' and 'last name'), 'Email address \*', 'Model', and 'Firmware version'. At the bottom, there is a 'Details \*' section with a large text area and a 'Submit' button.

Area: Japan, US, UK, India, Australia (As of '22 Dec)

- Have questions? Need help with Pioneer Smart Sync? Contact us directly from the app.
- Receive inquiries from the app by e-mail and reply by e-mail. Compatible with existing operation flow.
  - Supported languages: Japanese and English.
  - The country is determined by the SIM info of the smartphone.

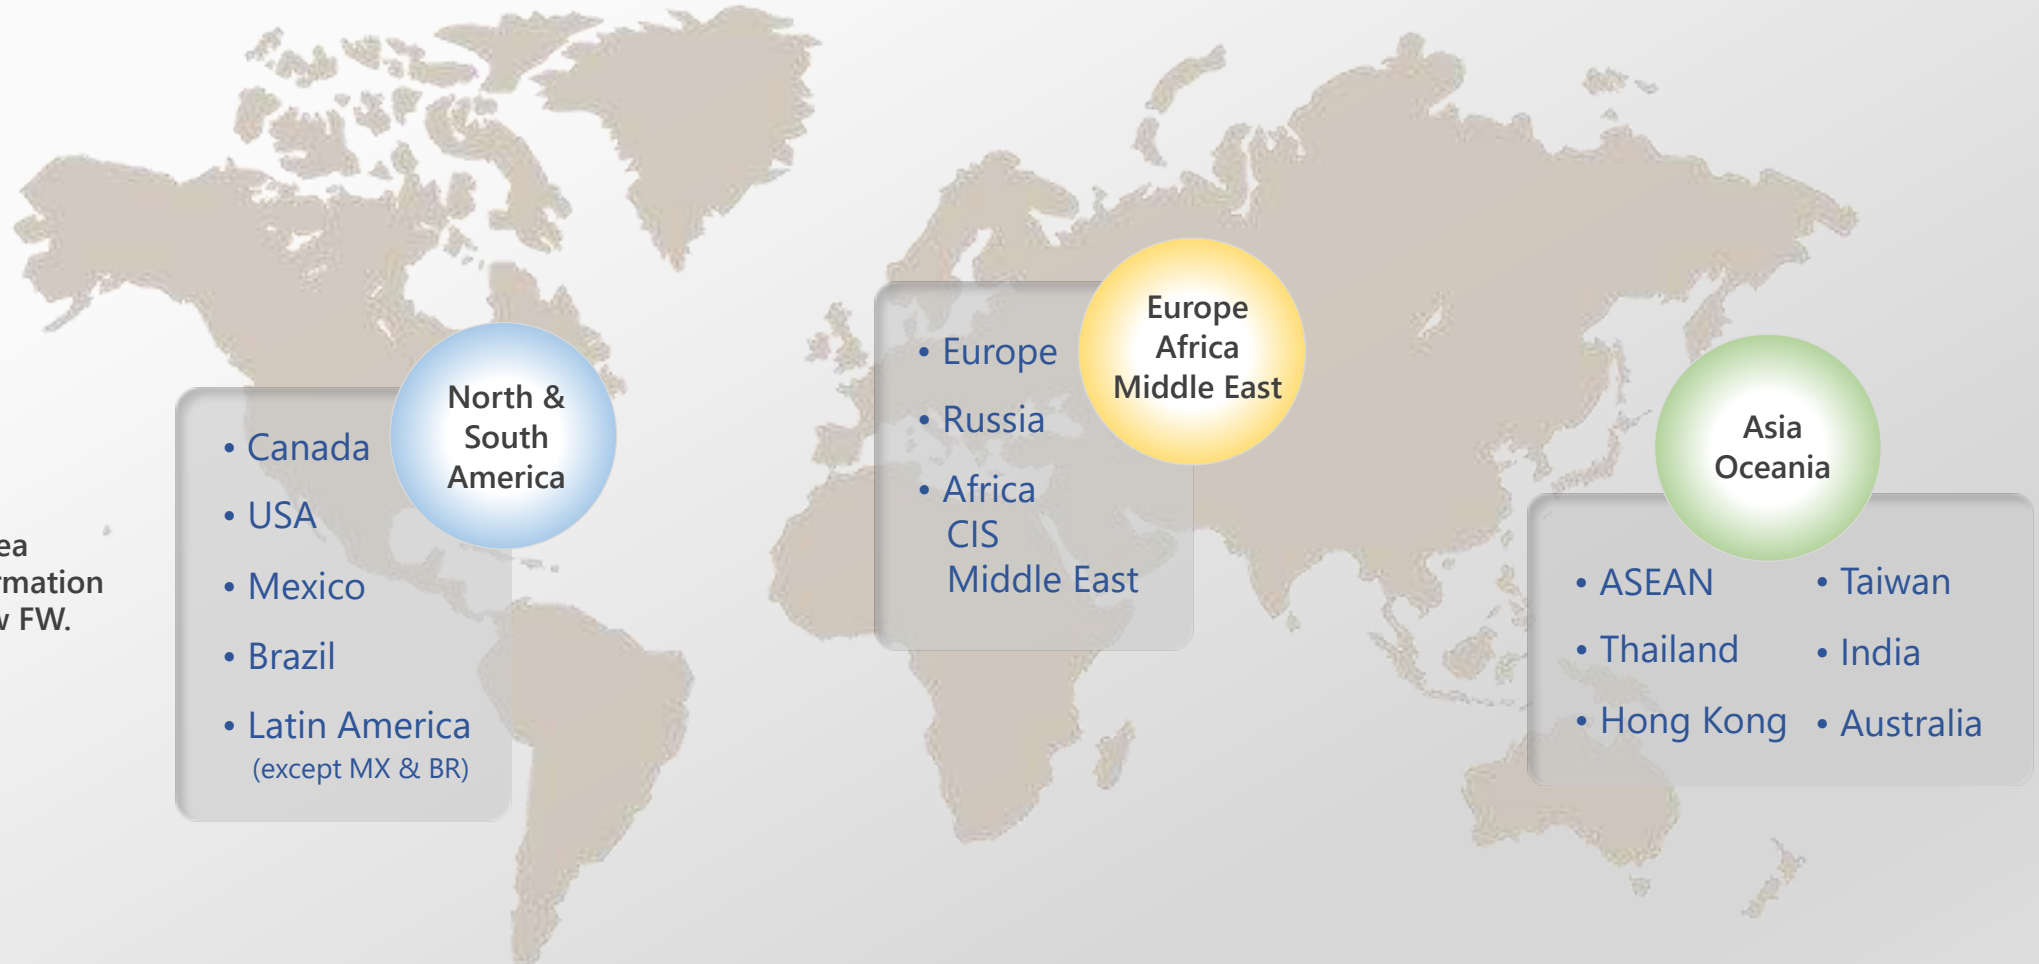

\*User does not need to register for an account to make user inquiries.

## Receiver's Firmware Update

For better behavior of the receiver, Pioneer recommends the users to keep the firmware (FW) of the radio to be the latest one.

Click your area for the latest information and getting new FW.

- Latest FW version was released in January 2022. (as of Nov. '22)
- Required item to perform the update: A USB storage device with 2GB or larger capacity, formatted to FAT32 Blank (should not contain any other files)

## SPH-C10BT

Smartphone Receiver

Compatible  
with Android

MOSFET 50Wx4

Rear Panel

Note: Smartphone not included with SPH-C10BT. Pioneer Smart Sync App download required.

## Key Selling Points

1

Provides safer and easier access to your smartphone apps.

2

Safety features, such as voice recognition and parking assistance, support safe driving.

3

Greater variety of sound effects and sound adjustments.

## Features that Support Your Safety

SPH-C10BT is equipped with Parking Assistance and other valuable safety features.

### Parking Assistance\*

With Pioneer's parking sensor, a helpful parking assist display appears on your smartphone screen.

\* Optional parking sensor is required.

### ND-PS1 Parking Sensor (optional)

### Impact Detection

If a powerful impact is detected by your smartphone sensor, Pioneer Smart Sync will notify a registered emergency contact.

#### WARNING:

- Only use a function when it is safe and legal in your location, pay attention to the road and your surroundings, limit glances to the device, and obey all traffic rules.
- Distracted driving may result in serious injury, including death.
- Driver support functions are intended solely to assist the driver.
- They do not detect all dangers and obstacles or substitute for your judgment and careful attention.

# Greater Variety of Sound Effects to Enjoy

Various sound adjustment features allow you to boost the sound quality.

## 31-Band EQ

Makes possible precise adjustment of equalizer settings. Handy preset EQ settings are provided, too.

## Easy Sound Fit (Time Alignment)

For aligned sound performance from each speaker, simply select the vehicle type—all it takes is a single touch.

## Super "Todoroki" Sound

For well-balanced, powerful and clear bass sound.

## Live Simulation Sound Effect

Sound field control and sound effect control features give the sense that you are listening to music at a live concert. Preset effects include Stadium, Live House, Hall, and others.

DEH-S4250BT	Up to 10	Up to 2	Up to 5

## Manual Time Alignment

Utilizing Time Alignment function, you can adjust speaker output timing, so that sound from all speakers reaches the driver's ears in perfect sync.

## 3-Way Network Mode MVH-S425BT FH-S725BT

Connect (via three preouts) up to three external amplifiers, for more distinct separation among high-, mid- and low-frequency ranges, and more natural sound that fully realizes each speaker's potential.

## Support FLAC Codec\*

Pioneer audio receiver upgrades in-car audio with amazingly brilliant reproduction of sound by FLAC files surpass CD tracks in terms of playback audio quality.

\* For the files stored in USB thumb drive.

## 13-Band EQ and Presets

The 13-Band Equalizer allows detailed adjustments to acoustic settings. Various EQ presets ensure that users with only basic acoustic knowledge can learn and enjoy the advantages of using an EQ.

\* 31-Band EQ is available when the receiver is linked with the Pioneer Smart Sync app.

# Dynamic Bass Enhancer

Pioneer Audio Receivers enrich bass depth and use Pioneer original technology to provide more dynamic, punchy sound.

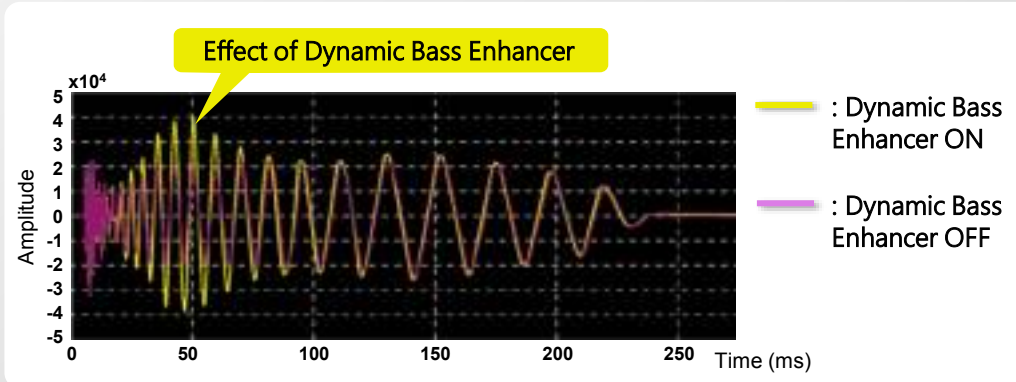

## ■ Reproduction of Missing Fundamentals

The unique audio processing restores fundamental qualities that may be missing from the original sound, allowing you to hear bass sound quality that surpasses the depths of low-frequency sound that speakers can actually emit. From even small speakers, you can feel the impression of heavy bass that you typically hear from larger speakers.

## ■ Emphasizing Kick Sound

By increasing specific amplitude, you can experience the kick sound sensation of punchy beat.

## ■ Smooth Hard Key Operation

### Bass Boost Key\*

Just press Bass Boost key to activate Dynamic Bass Enhancer effect.

\* Except MVH-MS510BT and MVH-MS410BT.

# Karaoke Function

MVH-S425BT

DEH-S5250BT

DEH-S4250BT

FH-S525BT

Just connect a microphone\* with a Pioneer audio receiver. Then, you can sing along, karaoke-style, with your amplified voice accompanied by your favorite music playing from compatible digital audio sources\*\* in the vehicle.

\* Microphone is not included with Pioneer receiver.

\*\* From CD, iPhone, certain Android phones, USB device, and Bluetooth® wireless audio

## Karaoke Vocal Cancel

“Vocal Cancel\*” is a Karaoke function designed to remove the vocals from music. Applicable sources: CD, iPhone, USB, Bluetooth® Audio, Pioneer Smart Sync App

\* Depending on the mix of the music, some traces of the vocal track may remain.

# Anti-Dust Design\*

Pioneer heat release structure can reduce ventilation holes & clearance gaps. The results are optimally efficient heat dissipation and prevention of entry of dust that can cause malfunction.

\* The effect might change depending on the environment of the car.

## Anti-Dust Structure Image

Non-anti-dust design

Anti-dust design

# Pioneer Smart Sync Technology

It's a highly evolved technology that links your smartphone to Pioneer car audio and entertainment systems. Fully utilizing the power of your smartphone, it expands, evolves and furthers the enjoyment of every moment you spend in your car.

# Amplifiers

**GM-DX874**

Class-FD 4-Channel Bridgeable Amplifier with Bass Boost Remote

**1200 W MAX.****Dimensions****Key Selling Points**

1

Compatibility with High-Resolution Audio offers sound reproduction with extraordinarily realistic atmosphere.

2

Superior-quality audio parts and fine acoustic tuning yield outstanding sound quality. A high-capacity audio power source capacitor ensures stable power supply even at high power output.

3

The addition of an aluminum hairline panel on the top plate enhances the high-quality sense of design.

**GM-D9705**

Class-FD\* 5-Channel Amplifier \* For A-Ch. and B-Ch only.

**2000 W MAX.**

*Class FD* Variable **HPF** Variable **LPF**  
**RCA INPUT** **SPEAKER INPUT** *Bass Boost Remote*

**Dimensions****Key Selling Points****1**

Various setting and connections expand your choice of system configuration.

**2**

The versatile 5-channel capability of the GM-D9705 features dedicated subwoofer output for ample power to drive strong bass.

**3**

Despite the amplifier's compact size, which ensures easy installation, its high output is astonishing.

**GM-D9704**

Class-FD 4-Channel Bridgeable Amplifier with Bass Boost Remote

1600 W MAX.

Class FD Variable HPF Variable LPF

LPF RCA INPUT SPEAKER INPUT

### Key Selling Points

1

Higher power output contained in compact dimensions.

2

Outstanding features include Bass Boost, Automatic Signal Sensing & Turn-ON, and others.

3

Variable high pass filter (for high-frequency-range sound) enhances tuning flexibility and sonic clarity.

## GM-E7004

4-Channel Bridgeable Amplifier with Bass Boost

1000 W MAX.

Variable LPF Variable HPF RCA INPUT  
SPEAKER INPUT **Bass Boost**

## GM-E7002

2-Channel Bridgeable Amplifier with Bass Boost

500 W MAX.

Variable LPF Variable HPF RCA INPUT  
SPEAKER INPUT **Bass Boost**

### Key Selling Points

- 1 Built for High Power, Energetic Sound — High output with the large-capacity electrolytic capacitors - Stable performance ensured with optimized PCB board
- 2 Flexibly sound tune as you like — Wide range, variable LPF & HPF for system flexibility, Two-step Bass Boost as a juice for more fun!
- 3 Easy install, Easy way to enjoy! RCA/Speaker level input compatible — Enjoy without changing radio or adding any converter

# Subwoofers & Speakers

# Amazing Quality in Every Sound You Love to Listen To

For 2022, Pioneer's subwoofer and speaker lineup lets you experience higher-quality sound in whatever kind of music turns you on. With so many great choices, you can select the most suitable speakers to reproduce your favorite kinds of sound.

### AV Receivers

DMH-A5450BT

DMH-A4450BT

### Amplifier

GM-D8704

100 W x 4 @4-ohm

### Speakers

TS-J170C

Front

Nominal 45 W

TS-D65F

Rear

RMS 90 W

### Subwoofer

TS-WX400DA

Nominal 100 W

# Recommended Product Bundling

## Enhanced

Energetic Treble Live Sound, Rich Midrange Reproduction.

### AV Receivers

DMH-AF555BT

DMH-A345BT

AVH-A245BT

### Amplifier

GM-A6704

60 W x 4 @4-ohm

### Speakers

TS-A1600C

Front

RMS 80 W

TS-A1677S

Rear

RMS 70 W

### Subwoofer

TS-WX130DA

Nominal 50 W

# Recommended Product Bundling

## Affordable

Easily Customizing Your Car to Enjoy Music.

### AV Receivers

AVH-G225BT

DMH-G225BT

### Amplifier

GM-A4704

40 W x 4 @4-ohm

### Speakers
